Retrain the Model Review

TOTAL POINTS 1

1. When you're retraining your model, do you always want to use the same configuration, algorithm and hyperparameters?

1 / 1 point

- ☐ No, it's necessary to do the whole process all the way from the beginning every time
- ☒ No; it's fine to do that sometimes, but if there's significant change to the data or circumstances, you need to revisit all of those choices
- ☐ Yes, it's always too risky and expensive to do anything else
- ☐ Yes, that's always sufficient
